AMENDMENT NO.________  Calendar No.______

Purpose: To provide for a program of research, development, demonstration, and commercial application in vehicle technologies at the Department of Energy.

IN THE SENATE OF THE UNITED STATES—114th Cong., 1st Sess.

(no.)___________

To provide for the modernization of the energy policy of the United States, and for other purposes.

Referred to the Committee on ______________ and ordered to be printed

Ordered to lie on the table and to be printed

AMENDMENT intended to be proposed by Mr. Alexander (for himself and Ms. Stabenow)

Viz:

1  At the end, add the following:

2  **TITLE VI—VEHICLE INNOVATION ACT**

3  

4  **SEC. 6001. SHORT TITLE.**

5  This title may be cited as the “Vehicle Innovation Act of 2015”.

6  

7  **SEC. 6002. OBJECTIVES.**

8  The objectives of this title are—

9  (1) to establish a consistent and consolidated authority for the vehicle technology program at the

10  Department;
(2) to develop United States technologies and practices that—

(A) improve the fuel efficiency and emissions of all vehicles produced in the United States; and

(B) reduce vehicle reliance on petroleum-based fuels;

(3) to support domestic research, development, engineering, demonstration, and commercial application and manufacturing of advanced vehicles, engines, and components;

(4) to enable vehicles to move larger volumes of goods and more passengers with less energy and emissions;

(5) to develop cost-effective advanced technologies for wide-scale utilization throughout the passenger, commercial, government, and transit vehicle sectors;

(6) to allow for greater consumer choice of vehicle technologies and fuels;

(7) shorten technology development and integration cycles in the vehicle industry;

(8) to ensure a proper balance and diversity of Federal investment in vehicle technologies; and
(9) to strengthen partnerships between Federal
and State governmental agencies and the private
and academic sectors.

SEC. 6003. COORDINATION AND NONDUPLICATION.

The Secretary shall ensure, to the maximum extent
practicable, that the activities authorized by this title do
not duplicate those of other programs within the Depart-
ment or other relevant research agencies.

SEC. 6004. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Sec-
retary for research, development, engineering, demonstra-
tion, and commercial application of vehicles and related
technologies in the United States, including activities au-
thorized under this title—

(1) for fiscal year 2016, $313,567,000;
(2) for fiscal year 2017, $326,109,000;
(3) for fiscal year 2018, $339,154,000;
(4) for fiscal year 2019, $352,720,000; and
(5) for fiscal year 2020, $366,829,000.

SEC. 6005. REPORTING.

(a) TECHNOLOGIES DEVELOPED.—Not later than 18
months after the date of enactment of this Act and annu-
ally thereafter through 2020, the Secretary shall submit
to Congress a report regarding the technologies developed
as a result of the activities authorized by this title, with
4 a particular emphasis on whether the technologies were
2 successfully adopted for commercial applications, and if
3 so, whether products relying on those technologies are
4 manufactured in the United States.
5 (b) ADDITIONAL MATTERS.—At the end of each fis-
6 cal year through 2020, the Secretary shall submit to the
7 relevant Congressional committees of jurisdiction an an-
8 nual report describing activities undertaken in the pre-
9 vious year under this Act, active industry participants, the
10 status of public private partnerships, progress of the pro-
11 gram in meeting goals and timelines, and a strategic plan
12 for funding of activities across agencies.
13 
14 **Subtitle A—Vehicle Research and**
15 **Development**
16 
17 **SEC. 6101. PROGRAM.**
18 
19 (a) ACTIVITIES.—The Secretary shall conduct a pro-
20 gram of basic and applied research, development, engi-
21 neering, demonstration, and commercial application activi-
22 ties on materials, technologies, and processes with the po-
23 tential to substantially reduce or eliminate petroleum use
24 and the emissions of the Nation’s passenger and commer-
25 cial vehicles, including activities in the areas of—
26 (1) electrification of vehicle systems;
27 (2) batteries, ultracapacitors, and other energy
28 storage devices;
(3) power electronics;
(4) vehicle, component, and subsystem manufacturing technologies and processes;
(5) engine efficiency and combustion optimization;
(6) waste heat recovery;
(7) transmission and drivetrains;
(8) hydrogen vehicle technologies, including fuel cells and internal combustion engines, and hydrogen infrastructure, including hydrogen energy storage to enable renewables and provide hydrogen for fuel and power;
(9) natural gas vehicle technologies;
(10) aerodynamics, rolling resistance (including tires and wheel assemblies), and accessory power loads of vehicles and associated equipment;
(11) vehicle weight reduction, including lightweighting materials and the development of manufacturing processes to fabricate, assemble, and use dissimilar materials;
(12) friction and wear reduction;
(13) engine and component durability;
(14) innovative propulsion systems;
(15) advanced boosting systems;
(16) hydraulic hybrid technologies;
(17) engine compatibility with and optimization for a variety of transportation fuels including natural gas and other liquid and gaseous fuels;

(18) predictive engineering, modeling, and simulation of vehicle and transportation systems;

(19) refueling and charging infrastructure for alternative fueled and electric or plug-in electric hybrid vehicles, including the unique challenges facing rural areas;

(20) gaseous fuels storage systems and system integration and optimization;

(21) sensing, communications, and actuation technologies for vehicle, electrical grid, and infrastructure;

(22) efficient use, substitution, and recycling of potentially critical materials in vehicles, including rare earth elements and precious metals, at risk of supply disruption;

(23) aftertreatment technologies;

(24) thermal management of battery systems;

(25) retrofitting advanced vehicle technologies to existing vehicles;

(26) development of common standards, specifications, and architectures for both transportation and stationary battery applications;
(27) advanced internal combustion engines;
(28) mild hybrid;
(29) engine down speeding;
(30) vehicle-to-vehicle, vehicle-to-pedestrian,
and vehicle-to-infrastructure technologies; and
(31) other research areas as determined by the
Secretary.

(b) TRANSFORMATIONAL TECHNOLOGY.—The Sec-
retary shall ensure that the Department continues to sup-
port research, development, engineering, demonstration,
and commercial application activities and maintains com-
petency in mid- to long-term transformational vehicle tech-
nologies with potential to achieve reductions in emissions,
including activities in the areas of—

(1) hydrogen vehicle technologies, including fuel
cells, hydrogen storage, infrastructure, and activities
in hydrogen technology validation and safety codes
and standards;

(2) multiple battery chemistries and novel en-
ergy storage devices, including nonchemical batteries
and electromechanical storage technologies such as
hydraulics, flywheels, and compressed air storage;

(3) communication and connectivity among ve-
hicles, infrastructure, and the electrical grid; and
(4) other innovative technologies research and development, as determined by the Secretary.

(c) INDUSTRY PARTICIPATION.—To the maximum extent practicable, activities under this Act shall be carried out in partnership or collaboration with automotive manufacturers, heavy commercial, vocational, and transit vehicle manufacturers, qualified plug-in electric vehicle manufacturers, compressed natural gas vehicle manufacturers, vehicle and engine equipment and component manufacturers, manufacturing equipment manufacturers, advanced vehicle service providers, fuel producers and energy suppliers, electric utilities, universities, national laboratories, and independent research laboratories. In carrying out this Act the Secretary shall—

(1) determine whether a wide range of companies that manufacture or assemble vehicles or components in the United States are represented in ongoing public-private partnership activities, including firms that have not traditionally participated in federally sponsored research and development activities, and where possible, partner with such firms that conduct significant and relevant research and development activities in the United States;

(2) leverage the capabilities and resources of, and formalize partnerships with, industry-led stake-
holder organizations, nonprofit organizations, industry consortia, and trade associations with expertise in the research and development of, and education and outreach activities in, advanced automotive and commercial vehicle technologies;

(3) develop more effective processes for transferring research findings and technologies to industry;

(4) support public-private partnerships, dedicated to overcoming barriers in commercial application of transformational vehicle technologies, that utilize such industry-led technology development facilities of entities with demonstrated expertise in successfully designing and engineering pre-commercial generations of such transformational technology; and

(5) promote efforts to ensure that technology research, development, engineering, and commercial application activities funded under this Act are carried out in the United States.

(d) INTERAGENCY AND INTRAAGENCY COORDINATION.—To the maximum extent practicable, the Secretary shall coordinate research, development, demonstration, and commercial application activities among—
(1) relevant programs within the Department, including—

(A) the Office of Energy Efficiency and Renewable Energy;
(B) the Office of Science;
(C) the Office of Electricity Delivery and Energy Reliability;
(D) the Office of Fossil Energy;
(E) the Advanced Research Projects Agency—Energy; and
(F) other offices as determined by the Secretary; and

(2) relevant technology research and development programs within other Federal agencies, as determined by the Secretary.

(e) **Federal Demonstration of Technologies.**—The Secretary shall make information available to procurement programs of Federal agencies regarding the potential to demonstrate technologies resulting from activities funded through programs under this Act.

(f) **Intergovernmental Coordination.**—The Secretary shall seek opportunities to leverage resources and support initiatives of State and local governments in developing and promoting advanced vehicle technologies, manufacturing, and infrastructure.
(g) **CRITERIA.**—When awarding grants under this program, the Secretary shall give priority to those technologies (either individually or as part of a system) that—

1. provide the greatest aggregate fuel savings based on the reasonable projected sales volumes of the technology; and
2. provide the greatest increase in United States employment.

**SEC. 6102. MANUFACTURING.**

The Secretary shall carry out a research, development, engineering, demonstration, and commercial application program of advanced vehicle manufacturing technologies and practices, including innovative processes—

1. to increase the production rate and decrease the cost of advanced battery and fuel cell manufacturing;
2. to vary the capability of individual manufacturing facilities to accommodate different battery chemistries and configurations;
3. to reduce waste streams, emissions, and energy intensity of vehicle, engine, advanced battery and component manufacturing processes;
4. to recycle and remanufacture used batteries and other vehicle components for reuse in vehicles or stationary applications;
(5) to develop manufacturing processes to effectively fabricate, assemble, and produce cost-effective lightweight materials such as advanced aluminum and other metal alloys, polymeric composites, and carbon fiber for use in vehicles;

(6) to produce lightweight high pressure storage systems for gaseous fuels;

(7) to design and manufacture purpose-built hydrogen fuel cell vehicles and components;

(8) to improve the calendar life and cycle life of advanced batteries; and

(9) to produce permanent magnets for advanced vehicles.

Subtitle B—Medium- and Heavy-Duty Commercial and Transit Vehicles

SEC. 6201. PROGRAM.

The Secretary, in partnership with relevant research and development programs in other Federal agencies, and a range of appropriate industry stakeholders, shall carry out a program of cooperative research, development, demonstration, and commercial application activities on advanced technologies for medium- to heavy-duty commercial, vocational, recreational, and transit vehicles, including activities in the areas of—
(1) engine efficiency and combustion research;
(2) onboard storage technologies for compressed and liquefied natural gas;
(3) development and integration of engine technologies designed for natural gas operation of a variety of vehicle platforms;
(4) waste heat recovery and conversion;
(5) improved aerodynamics and tire rolling resistance;
(6) energy and space-efficient emissions control systems;
(7) mild hybrid, heavy hybrid, hybrid hydraulic, plug-in hybrid, and electric platforms, and energy storage technologies;
(8) drivetrain optimization;
(9) friction and wear reduction;
(10) engine idle and parasitic energy loss reduction;
(11) electrification of accessory loads;
(12) onboard sensing and communications technologies;
(13) advanced lightweighting materials and vehicle designs;
(14) increasing load capacity per vehicle;
(15) thermal management of battery systems;
14
1  (16) recharging infrastructure;
2  (17) compressed natural gas infrastructure;
3  (18) advanced internal combustion engines;
4  (19) complete vehicle and power pack modeling,
5      simulation, and testing;
6      (20) hydrogen vehicle technologies, including
7          fuel cells and internal combustion engines, and hy-
8         drogen infrastructure, including hydrogen energy
9          storage to enable renewables and provide hydrogen
10         for fuel and power;
11      (21) retrofitting advanced technologies onto ex-
12          isting truck fleets;
13      (22) advanced boosting systems;
14      (23) engine down speeding; and
15      (24) integration of these and other advanced
16          systems onto a single truck and trailer platform.
17  SEC. 6202. CLASS 8 TRUCK AND TRAILER SYSTEMS DEM-
18         ONSTRATION.
19      (a) IN GENERAL.—The Secretary shall conduct a
20          competitive grant program to demonstrate the integration
21          of multiple advanced technologies on Class 8 truck and
22          trailer platforms, including a combination of technologies
23          listed in section 6201(a).
24      (b) APPLICANT TEAMS.—Applicant teams may be
25          comprised of truck and trailer manufacturers, engine and
component manufacturers, fleet customers, university re-
searchers, and other applicants as appropriate for the de-
velopment and demonstration of integrated Class 8 truck
and trailer systems.

SEC. 6203. TECHNOLOGY TESTING AND METRICS.

The Secretary, in coordination with the partners of
the interagency research program described in section
6201(a)—

(1) shall develop standard testing procedures
and technologies for evaluating the performance of
advanced heavy vehicle technologies under a range of
representative duty cycles and operating conditions,
including for heavy hybrid propulsion systems;

(2) shall evaluate heavy vehicle performance
using work performance-based metrics other than
those based on miles per gallon, including those
based on units of volume and weight transported for
freight applications, and appropriate metrics based
on the work performed by nonroad systems; and

(3) may construct heavy duty truck and bus
testing facilities.

SEC. 6204. NONROAD SYSTEMS PILOT PROGRAM.

The Secretary shall undertake a pilot program of re-
search, development, demonstration, and commercial ap-
plications of technologies to improve total machine or sys-
tem efficiency for nonroad mobile equipment including ag-
ricultural, construction, air, and sea port equipment, and
shall seek opportunities to transfer relevant research find-
ings and technologies between the nonroad and on-high-
way equipment and vehicle sectors.

Subtitle C—Administration

SEC. 6301. REPEAL OF EXISTING AUTHORITIES.

(a) In General.—Sections 706, 711, 712, and 933
16061, 16062, 16233) are repealed.

(b) Energy Efficiency.—Section 911 of the En-
ergy Policy Act of 2005 (42 U.S.C. 16191) is amended—

(1) in subsection (a)—

(A) in paragraph (1)(A), by striking “vehi-
cles, buildings,” and inserting “buildings”; and

(B) in paragraph (2)—

(i) by striking subparagraph (A); and

(ii) by redesignating subparagraphs

(B) through (E) as subparagraphs (A)

through (D), respectively; and

(2) in subsection (e)—

(A) by striking paragraph (3);

(B) by redesignating paragraph (4) as

paragraph (3); and
(C) in paragraph (3) (as so redesignated),
by striking "(a)(2)(D)" and inserting "(a)(2)(C)".
