

Preliminary Estimate of Direct Spending and Revenue Effects of S. 47, the Natural Resources Management Act, as introduced on January 8, 2019

02/05/2019

(by fiscal year, in millions of dollars)

	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2019-2024	2019-2029
Estimated Budget Authority	*	-1	-7	*	*	*	*	*	*	*	*	-9	-9
Estimated Outlays	*	-1	-7	*	*	*	*	*	*	*	*	-9	-9

Source: Congressional Budget Office

Estimates are relative to CBO's January 2019 baseline; amounts may not sum to totals because of rounding; * = between -\$500,000 and \$500,000.

CBO has not completed an estimate of the effect of S. 47 on spending subject to appropriation or an analysis of intergovernmental and private-sector mandates as defined in the Unfunded Mandates Reform Act.

CBO estimates that enacting the bill would increase revenues by an insignificant amount over the 2019-2029 period.

S. 47 contains provisions that would affect the management and conservation of natural resources on federal lands. The bill would designate recreation and conservation areas, authorize land exchanges, withdraw certain lands from mineral extraction, revise the boundaries of several national parks, and establish new wildland fire management and volcano early warning programs, among other activities.
